Drainage system made of recyclable PE and PP Plastics

HYDRO

CONSTRUCTION PRODUCTS

A PRODUCT FOR EVERY PROJECT

Hydro Construction Products has been providing world class water management products and solutions to Australia and New Zealand since 2003. We are proud to be the exclusive supplier in Australia and New Zealand for the German-based MEA Group (Drainage). MEA's drainage division is one of the world's leading manufacturers and suppliers of linear drainage systems and has been used in a number of noteworthy projects including Formula One circuits, Air Force airbases, vehicle test tracks, international airports and several hundred petrol stations worldwide.

Hydro's drainage division HydroDrain also supplied MEA products to high profile projects in Australia including Adelaide Oval, AAMI Park, Melbourne Exhibition Centre plus ports, rail and service station redevelopments.

HydroDrain has the unique advantage of being able to supply gutter channels made of polymer concrete and regular concrete, as well as GRP to match our customers' specific application requirements. Our products are all specified to AS3996 and come in a variety of widths, depths, lengths and load ratings with grates and assorted accessories to suit.

EXCLUSIVE SUPPLIER OF

MEA

Our MEA® range comprises:

Our exclusive range of MEA products enable HydroDrain to provide our customers with drainage solutions for all applications including infrastructure & traffic, environment & agriculture, garden & landscaping, urban architecture, industry & trade and home & garden.

Our product range also extends to:

We have offices/warehouses in Melbourne, Brisbane and Sydney complemented by our network of sales representatives and distributors across Australia and New Zealand.

Visit www.hydrocp.com.au or call 1300 GO HYDRO to find out more.

MEA® GARD 100

100mm clear opening Channel and Grate system

Your benefits at a glance:

- > Strong and durable polymer concrete
- > Multiple grate options
- > Sumps and end caps available
